# Private Label

Fairy Tale Cotton Candy is the leading innovator in the cotton candy manufacturing space.

We offer R & D so you can create your own flavor profile to tell your flavor story. We use high quality ingredients including vegan, organic sugar, natural flavors and colors as well as artificial flavors and colors.

Everything is manufactured in our SQF certified plant in Des Moines, Iowa, where product quality is of the utmost importance.

Our proprietary production process for making cotton candy in tubs is the reason behind our incredibly fresh and light cotton candy.

Perhaps our best quality is the fact that all flavors and inclusions are free of the top nine allergens. And, our dye free line contains 12 flavors and we are adding to this monthly as we find new, all natural solutions to color our cotton candy.

We can be your cotton candy partner! Don't see the flavor you want? We can create it for you.

Private label MOQ's vary by customer request.

The Chocolate Storybook, founded in 1986, started out making fine chocolates and has a loyal following in Des Moines, Iowa. In 2013, owners Steve and Meg Shearer bought another company that came with 20 commercial cotton candy machines.

Husbands and wives don't always agree. Steve wanted to sell all the machines. Meg wanted to keep them. They compromised and kept 10 then spent the next few years developing classic as well as unique flavors, many of which are made with no artificial ingredients. The result? Over 50 gourmet flavors of cotton candy and thousands of new-found fans.

- **Private Label Capabilities**
- **SQF Certified Facility**
- **Many all natural flavors**
- **Shippers Available**

## details on tubs

- available in 12 ct & 36 ct casepacks
- 1 year shelf life from date of mfg
